**REFERENCE TO OTHER TARIFFS**

Whenever reference is made in this tariff to other tariffs of the Telephone Company, the reference is to the tariffs in force as of the effective date of this tariff, and to amendments thereto and successive issues thereof.

---

**SPECIAL CONSTRUCTION****1. Application of Tariff**

This tariff contains regulations, rates, charges and liabilities applicable for the Special Construction of interstate facilities provided to customers by the following Ameritech Operating Companies: Illinois Bell Telephone Company, Indiana Bell Telephone Company, Michigan Bell Telephone Company, Ohio Bell Telephone Company, and Wisconsin Bell, Inc., hereinafter referred to as the Telephone Company.

C

C

When special construction of facilities is required, the provisions of this tariff apply in addition to all regulations, rates and charges set fourth in the appropriate service tariff of the Telephone Company.

**2. Regulations****2.1 Filing of Charges**

Rates, charges and liabilities for special construction to provide facilities for use for one month or more are filed in Section 3, 4, 5, 6, and 7 following, as appropriate.

T

Rates, charges and liabilities for the construction of facilities for use for less than one month are filled in supplements to this tariff.

**2.2 Ownership of Facilities**

The Telephone Company providing specially constructed facilities under the provisions of this tariff retains ownership of all such facilities.

**2.3 Interval to Provide Facilities**

Based on available information and the type of service ordered, the Telephone Company will establish a completion date for the specially constructed facilities. If the scheduled completion date cannot be met due to circumstances beyond the control of the Telephone Company, a new completion date will be established and the customer will be notified.

**2.4 Special Construction Involving Both Interstate and Intrastate Facilities**

When special construction involves facilities to be used to provide both interstate and intrastate services, charges for the portion of the construction used to provide interstate service shall be in accordance with this tariff. Charges for the portion of the construction used to provide intrastate service shall be in accordance with the appropriate intrastate tariff.

## SPECIAL CONSTRUCTION

## 2. Regulations (Cont'd)

## 2.5 Payment of Charges

## 2.5.1 Payment of Charges

All bills associated with special construction charges are due in accordance with the appropriate regulations in the service tariff under which service is being provided.

2.5.2 Start/End of Billing<sup>(1)</sup> (N)

Billing of recurring charges for specially construction facilities starts on the day after the facilities are made available for use. Billing accrues through and includes the day that the specially constructed facilities are discontinued.

2.5.3 Credit Allowance for Service Interruptions<sup>(1)</sup> (N)

In the event of a service interruption involving a specially constructed facility, the customer shall receive a recurring monthly charge credit in accordance with the credit allowance provisions in the appropriate service tariff associated with the affected services.

When an interruption continues due to the failure of the customer to authorize the replacement of facilities subject to a Replacement Charge, as specified in 2.6.4 (B) (4) following, the credit allowance will be terminated on the seventh calendar day after the Telephone Company has provided the customer with written notification of the need for replacement. The credit allowance will resume on the day after the Telephone Company receives written authorization for the replacement from the customer.

## 2.6 Liabilities and Charges for Special Construction

## 2.6.1 General

This section describes the various charges and liabilities that may apply when the Telephone Company provides special construction of facilities in accordance with an order for service. Written approval of all liabilities and charges must be provided to the Telephone Company prior to the start of construction.

(1) This regulation is applicable to Special Construction cases filed prior to May 10, 2000. (N)

(This page filed under Transmittal No. 1233)

---

**SPECIAL CONSTRUCTION****2. Regulations (Cont'd)****2.6 Liabilities and Charges for Special Construction (Cont'd)****2.6.2 Conditions Requiring Special Construction**

Special Construction is required when 1) facilities are not available to meet an order for service, 2) the Telephone Company constructs facilities, and 3) one or more of the following conditions exist:

- The Telephone Company has no other requirement for the facilities requested.
- It is requested that service be furnished using a type of facility, or via a route, other than that which the Telephone Company would normally utilize in furnishing the requested service.
- More facilities are requested than would normally be required to satisfy an order.
- It is requested that construction be expedited, resulting in added cost to the Telephone Company.

**2.6.3 Development of Liabilities and Charges**

Special construction charges and liabilities will be developed based on estimated costs, except when actual costs are requested in writing prior to the start of special construction.

In order to meet a scheduled service date when actual costs are requested, an initial special construction filing may be made based on estimated costs. Such a filing will be revised when actual costs are available.

**2.6.4 Types of Liabilities and Charges**

Depending on the specifics associated with each individual case, one or more of the following special construction charges and/or liabilities may be applicable:

**(A) Nonrecurring Charge**

A nonrecurring charge always applies and includes one or more of the following components:

**(1) Case Preparation Charge**

A nonrecurring charge always includes a case preparation charge component to cover the administrative expenses associated with preparing a special construction case and the associated tariff filing.

## SPECIAL CONSTRUCTION

## 2. Regulations (Cont'd)

## 2.6 Liabilities and Charges for Special Construction (Cont'd)

## 2.6.4 Types of Liabilities and Charges (Cont'd)

## (A) Nonrecurring Charge (Cont'd)

## (2) Expediting Charge

A nonrecurring charge may include an expediting charge when it is requested that special construction be completed on an expedited basis. The charge equals the difference in estimated cost between expedited and nonexpedited construction.

(3) Optional Payment<sup>(1)</sup> (N)

An optional payment charge may be included in the nonrecurring charge in association with a type of facility or route other than that which the Telephone Company would normally use in furnishing the requested service if lower recurring monthly charges are desired for the specially constructed facilities. This charge is equal to the excess installed cost or the total nonrecoverable cost, whichever is less. This election must be made in writing before special construction starts. If this election is coupled with the actual cost option, the optional payment charge will reflect the actual cost of the specially constructed facilities.

(4) Replacement Charge<sup>(1)</sup> (N)

If any portion of specially constructed facilities for which an optional payment charge has been paid requires replacement involving capital investment, a replacement charge will apply. This charge will be in the same ratio to the total replacement cost as the initial optional payment charge was to the installed cost of the original specially constructed facilities. If any portion of the facilities subject to the replacement charge fails, service will not be restored until notification is provided in writing that replacement is required and such replacement is ordered.

(1) This charge applies to special construction cases filed prior to May 10, 2000. (N)

(This page filed under Transmittal No. 1233)

## SPECIAL CONSTRUCTION

## 2. Regulations (Cont'd)

## 2.6 Liabilities and Charges for Special Construction (Cont'd)

## 2.6.4 Type of Liabilities and Charges (Cont'd)

## (A) Nonrecurring Charge (Cont'd)

## (5) Rearrangement Charge

If the Telephone Company is requested to rearrange existing specially constructed facilities, a nonrecurring charge equal to the cost of any additional special construction will apply.

## (6) Special Construction of Facilities for Use for less than One Month

When the Telephone Company is requested to construct facilities to provide service for less than one month, a Special Construction nonrecurring charge may apply in addition to the appropriate service tariff rates and charges. In addition to the case preparation charge component, this nonrecurring charge recovers all elements of cost, including engineering, shipping of equipment, equipment installation, line-up, equipment leasing, space rental, equipment removal, and any other costs associated with the construction of the facilities.

Effective: May 10, 2000

One Bell Plaza, Dallas, Texas 75202

(T)  
(D)  
(D)

## SPECIAL CONSTRUCTION

## 2. Regulations (Cont'd)

## 2.6 Liabilities and Charges for Special Construction (Cont'd)

## 2.6.4 Type of Liabilities and Charges (Cont'd)

## (A) Nonrecurring Charge (Cont'd)

(8) Nonrecoverable Cost Component<sup>(1)</sup>

(N)

This component may apply, at the customer's option, in lieu of the Maximum Termination Liability and Annual Underutilization Charge, to specially constructed facilities for use for more than one month, and is equal to the present worth of the capital costs of the nonrecoverable facilities installed to provide service, and will be calculated based on the prospective life of the facility.

## (9) Upfront Payment

(N)

Where the Company is requested to provide special construction, an upfront payment equal to the additional nonrecoverable cost will apply. This upfront payment must be paid prior to the start of construction. These nonrecoverable costs will exclude those nonrecoverable costs that the Telephone Company would recover through recurring and nonrecurring charges for the associated basic service.

(N)

(B) Maximum Termination Liability and Termination Charge<sup>(1)</sup>

(N)

A Maximum Termination Liability is equal to the non-recoverable costs associated with specially constructed facilities and is the maximum amount which could be applied as a Termination Charge if all specially constructed facilities were discontinued before the Maximum Termination Liability expires.

The liability is equal to the prospective life of the account associated with the specially constructed facilities but will not exceed 10 years for Special Construction cases effective subsequent to January 15, 1991. The liability period is expressed in terms of an effective and expiration date. The Maximum Termination Liability for this period is filed with the initial tariff filing.

At the customer's option, a filed Maximum Termination Liability may be retired by paying the Non-recoverable Cost Component Charge for the currently un-recovered capital costs of the non-recoverable facility.

(1) This charge applies to special construction cases filed prior to May 10, 2000.

(N)

(This page filed under Transmittal No. 1233)

## SPECIAL CONSTRUCTION

## 2. Regulations (Cont'd)

## 2.6 Liabilities and Charges for Special Construction (Cont'd)

## 2.6.4 Type of Liability and Charges (Cont'd)

(B) Maximum Termination Liability and Termination Charge (Cont'd)<sup>(1)</sup> (N)

For Special Construction cases effective prior to January 15, 1991, the Maximum Termination Liability is filed with the initial tariff filing in decreasing amounts at ten-year intervals over the prospective account life of the facilities. In the event that the prospective account life of the facilities is not an even multiple of ten, the last increment reflects the appropriate number of years remaining.

## Example Illustrating a 27 Year Prospective Account Life

Maximum Termination Liability	Effective Date	Expiration Date _
\$10,000	6/1/84	6/1/94
7,000	6/1/94	6/1/04
3,000	6/1/04	6/1/11

When multiple liability periods apply, prior to the expiration of each liability period, the customer has the option to (A) terminate the special construction case and pay the appropriate charges, or (B) extend the use of the specially constructed facilities for the new liability period. The Telephone Company will notify the customer six months in advance of the expiration date of each ten-year liability period. The customer must provide the Telephone Company with written notification at least 30 days prior to the expiration of the liability period if termination is elected. Failure to do so will result in an automatic extension of the special construction to the next liability period at the filed Maximum Termination Liability amount.

A Termination Charge may apply when all services using specially constructed facilities which have a tariffed Maximum Termination Liability are discontinued prior to the expiration of the liability period. The charge reflects the unamortized portion of the nonrecoverable costs at the time of termination, adjusted for net salvage and possible reuse. Administrative costs associated with the specific case of special construction and any costs for restoring a location to its original condition are also included. A termination charge may never exceed the filed Maximum Termination Liability.

(1) This charge applies to special construction cases filed prior to May 10, 2000. (N)

## SPECIAL CONSTRUCTION

## 2. Regulations (Cont'd)

## 2.6 Liabilities and Charges for Special Construction (Cont'd)

## 2.6.4 Type of Liabilities and Charges (Cont'd)

(B) Maximum Termination Liability and Termination Charge (Cont'd)<sup>(1)</sup> (N)

A partial termination of specially constructed facilities will be provided, at the election of the customer. The amount of the Termination Charge associated with such partial termination is determined by multiplying the termination charge which would result of all services using the specially constructed facilities were discontinued, at the time partial termination is elected, by the percentage of specially constructed facilities to be partially terminated. A tariff filing will be made following a partial termination to list remaining Maximum Termination Liability amounts and the number of specially constructed facilities the customer will remain liable for.

## Example

A customer with a filed Maximum Termination Liability of \$100,000 for 3600 specially constructed facilities requests a partial termination of 900 facilities. The Termination Charge for all facilities, at the time of election, is \$60,000. The partial termination charge in this example, is \$60,000 x 900/3600, or \$15,000.

(C) Annual Underutilization Liability and Underutilization Charge<sup>(1)</sup> (N)

Prior to the start of special construction, the Telephone Company and the customer will agree on (1) the quantity of facilities to be provided, and (2) the length of the planning period during which the customer expects to place the facilities in service. The planning period is hereinafter referred to as the Initial Liability Period (ILP). The ILP is listed in the tariff with an effective and expiration date.

Underutilization occurs only if, at the expiration date of the ILP and annually thereafter, less than 70 percent of the specially constructed facilities are in service at filed tariff service rates.

(1) This charge applies to special construction cases filed prior to May 10, 2000. (N)

(This page filed under Transmittal No. 1233)

## SPECIAL CONSTRUCTION

## 2. Regulations (Cont'd)

## 2.6 Liabilities and Charges for Special Construction (Cont'd)

## 2.6.4 Type of Liabilities and Charges (Cont'd)

(C) Annual Underutilization Liability and Underutilization Charge  
(Cont'd)<sup>(1)</sup>

(N)

An annual underutilization liability amount is filed on a per unit basis (e.g., per cable pair) for each case of special construction. This amount is equal to the annual per unit cost and includes depreciation, maintenance, administration, return, taxes and any other costs identified in the supporting documentation provided at the time the special construction case is filed.

Upon the expiration of the ILP, the number of underutilized facilities, if any, are multiplied by the annual underutilization liability amount. This product is then multiplied by the number of years (including any fraction thereof) in the ILP to determine the underutilization charge.

Annually thereafter, the number of underutilized facilities, if any, existing on the anniversary of the ILP expiration date will be multiplied by the annual underutilization liability amount to determine the underutilization charge for the preceding 12 month period.

## Example

A customer orders 100 services and the special construction of a 600 pair building riser cable is agreed to, based on the customer's 5 year facility requirements. The ILP, in this example, would be filed at 5 years.

The annual underutilization liability is filed at \$2.00 per pair. If 400 pairs were in service at the end of the ILP, there would be an underutilization of 20 pairs, i.e.,  $420 (70\% \text{ of } 600) - 400 = 20$ . The total underutilization charge for the first 5 years would be \$200.00, or \$2.00 per pair x 20 pairs x 5 years.

If 420 pairs are in service at the end of the 6th year, there is no underutilization, i.e.,  $420 - 420 = 0$ .

If either a partial or full termination of specially constructed facilities is requested by the customer, the expiration date of any unexpired ILP will be changed to the date of the termination. Underutilization, if any, will be computed and billed based on the new ILP expiration date and will apply in addition to the appropriate termination charge.

(1) This charge applies to special construction cases filed prior to May 10, 2000.

(N)

(This page filed under Transmittal No. 1233)

## SPECIAL CONSTRUCTION

## 2. Regulations (Cont'd)

## 2.6 Liabilities and Charges for Special Construction (Cont'd)

## 2.6.4 Type of Liabilities and Charges (Cont'd)

## (D) Recurring Monthly Charges

(1) Charge for Route or Type other than Normal<sup>(1)</sup>

(N)

When special construction is requested using a route or type of facility other than that which the Telephone Company would normally use, a recurring monthly charge, in addition to the monthly rates for service, is applicable. The charge is equal to the difference between the recurring costs of the specially constructed facilities and the recurring costs of the facilities the Telephone Company would have normally used.

(a) When an Optional Payment Charge as set forth in 2.6.4 (A) (3) preceding has been elected, the recurring monthly charge will be reduced to include specially constructed facility operating expenses only.

(b) If the actual cost option as set forth in 2.6.3 preceding has been elected, the recurring charge will be adjusted to reflect the actual cost of the new construction when the costs have been determined. This adjusted recurring charge is applicable from the start of service.

## (E) Lease Charge

This charge applies when the Telephone Company leases equipment in order to meet service requirements. The amount of the charge is equal to the net added cost to the Telephone Company caused by the lease.

## (F) Cancellation Charge

If a service order with which special construction is associated is canceled prior to the start of service, a cancellation charge will apply. The charge will include all nonrecoverable costs incurred by the Telephone Company in association with the special construction up to and including the time of cancellation.

(1) This regulation is applicable to Special Construction cases filed prior to May 10, 2000.

(N)

(This page filed under Transmittal No. 1233)

---

**SPECIAL CONSTRUCTION****2. Regulations (Cont'd)****2.7 Deferral of Start of Service**

The Telephone Company may be requested to defer the start of service which will use specially constructed facilities subject to the provisions set forth in the service tariff under which service is being provided. Requests for special construction deferral must be in writing and are subject to the following regulations:

**2.7.1 Construction Has Not Begun**

If the Telephone Company has not incurred any installation costs before receiving a request for deferral, no charge applies.

**2.7.2 Construction Has Begun**

If the construction of facilities has begun before the Telephone Company receives a request for deferral, charges will vary as follows:

**(A) All Services Are Deferred**

When all services which will use specially constructed facilities are deferred, a charge based on the costs incurred by the Telephone Company during each month of the deferral will apply. Those costs include the recurring costs for that portion of the facilities already completed and any other costs associated with the deferral. The cost of any components of the nonrecurring charge which have been completed at the time of deferral will also apply.

**(B) Some Services Are Deferred**

When some services which will use the specially constructed facilities are deferred, the construction case will be completed and all special construction charges will apply.

**2.7.3 Construction Complete**

If the construction of facilities has been completed before the Telephone Company receives a request for deferral, all special construction charges will apply.

---

**SPECIAL CONSTRUCTION****2. Regulations (Cont'd)****2.8 Definitions**

Actual Cost - The term "Actual Cost" denotes all costs charged against a specific case of special construction, including any appropriate taxes.

Annual Underutilization Liability - The term "Annual underutilization Liability" denotes a per unit charge which may be billed annually if fewer services are in use utilizing specially constructed facilities at filed tariff rates than were originally specially constructed.

Estimated Cost - The term "Estimated Cost" denotes all estimated costs that will be incurred in providing a specific case of special construction, including any appropriate taxes.

Facilities - The term "Facilities" denotes any cable, poles, conduit, microwave or carrier equipment, wire center distribution frames, central office switching equipment, etc., utilized to provide interstate services offered under the tariffs referenced by this tariff.

Initial Liability Period - The term "Initial Liability Period" denotes the initial planning period during which the customer expects to place specially constructed facilities in service.

Installed Cost - The term "Installed Cost" denotes the total investment (estimated or actual) required by the Telephone Company to provide specially constructed facilities.

Maximum Termination Liability - The term "Maximum Termination Liability" denotes the maximum amount which may be billed if all services using specially constructed facilities are terminated prior to the expiration of the maximum termination liability period.

Maximum Termination Liability Period - The term "Maximum Termination Liability Period" denotes the length of time for which a termination charge may apply if all services using specially constructed facilities are terminated. The liability period is equal to the prospective account life of the specially constructed facilities but will not exceed 10 years for Special Construction cases effective subsequent to January 15, 1991. When the construction involves multiple classes of plant with differing lives, the liability period is equal to the weighted average of the prospective account lives involved in the special construction case, using nonrecoverable investment as the basis for weighting. The duration of maximum termination liability period will be specified in the tariff.

---

**SPECIAL CONSTRUCTION****2. Regulations (Cont'd)****2.8 Definitions (Cont'd)**

Net Salvage - The term "Net Salvage" denotes the estimated scrap, sale, or trade-in value, less the estimated cost of removal. Cost of removal includes the costs of demolishing, tearing down, or otherwise disposing of the material and any other applicable costs. Since the cost of removal may exceed salvage value, net salvage may be negative.

Nonrecoverable Cost - The term "Nonrecoverable Cost" denotes the cost of specially constructed facilities for which the Telephone Company has no foreseeable use should the service be terminated.

Normal Construction - The term "Normal Construction" denotes all facilities the Telephone Company would normally use to provide service in the absence of a requirement for special construction.

Normal Cost - The term "Normal Cost" denotes the estimated cost to provide services using normal construction.

Permanent Facilities - The term "Permanent Facilities" denotes facilities providing service for one month or more.

Prospective Account Life - The term "Prospective Account Life" denotes the expected depreciation life for each class of telephone plant.

Recoverable Cost - The term "Recoverable Cost" denotes the cost of the specially constructed facilities for which the Telephone Company has a foreseeable reuse, either in place or elsewhere, should the service be terminated.

Termination Charge - The term "Termination Charge" denotes the portion of the maximum termination liability that is applied as a nonrecurring charge when all services are discontinued prior to the expiration of the specified liability period.

## SPECIAL CONSTRUCTION

### 3. Illinois Bell Special Construction Cases (Cont'd)

#### 3.2 Special Construction Cases Transferred From American Telephone and Telegraph Company, Long Lines Department Tariff F.C.C. No. 262

X

##### 3.2.1 Charges for facilities within the State of Illinois

This section contains the Illinois Bell Telephone Company portion of special construction cases providing permanent facilities in accordance with the regulations contained in American Telephone and Telegraph Company, Long Lines Department Tariff F.C.C. No. 262. Special Construction, prior to May 25, 1984. These cases are subject to the regulations specified in 2.1 through 2.8 preceding, with the exception of maximum termination liability and annual underutilization liability as follows. The maximum termination liability period for special construction cases transferred from Tariff F.C.C. No. 262. In addition, instead of underutilization liability based on costs when there is a partial discontinuance of service on specially constructed facilities, the charge for only the rate elements containing the specially constructed facilities, as contained in the appropriate service tariff, will apply during the unexpired portion of the maximum termination liability period. For purposes of determining this charge, any facilities subject to minimum period monthly charges are considered to be in service at filed tariff rates.

##### Charges for facilities within the State of Illinois

###### WXFM

Construction of audio facilities between Grace Lutheran Church and WXFM studio transmitter

in Chicago, Ill.

MTL - Ill. Bell - \$170.00

**4. Indiana Bell Special Construction Cases****4.1 Special Construction Cases Transferred From Indiana Bell Telephone Company, Incorporated Tariff F.C.C. No. 33**

This section contains special construction charges for facilities provided to Other Common Carriers in accordance with Indiana Bell Telephone Company, Incorporated Tariff F.C.C. No. 33, Facilities for Other Common Carriers, prior to May 25, 1984. These special construction cases are subject to the regulations specified in 2.1 through 2.8 preceding, with the following exception. When the initial liability period expires, an annual underutilization charge applies to the difference between 70% of the number of original specially constructed facilities and the number of facilities in service at filed tariff rates at that time. For purposes of determining the underutilization charge, any facilities subject to minimum period monthly charges are considered to be in service at filed tariff rates.

**4. Indiana Bell Special Construction Cases (Cont'd)****4.2 Special Construction Cases Transferred From American Telephone and Telegraph Company, Long Lines Department Tariff F.C.C. No. 262**

This section contains the Indiana Bell Telephone Company, Incorporated portion of special construction cases providing permanent facilities in accordance with the regulations contained in American Telephone and Telegraph Company, Long Lines Department Tariff F.C.C. No. 262, Special Construction, prior to May 25, 1984. These cases are subject to the regulations specified in 2.1 through 2.8 preceding, with the exception as follows. The maximum termination liability period for special construction cases transferred from Tariff F.C.C. No. 262 shall retain a liability period as specified in Tariff F.C.C. No. 262. In addition, instead of underutilization liability based on costs, when there is a partial discontinuance of service on specially constructed facilities, the charge for only the rate elements containing the specially constructed facilities, as contained in the appropriate service tariff, will apply during the unexpired portion of the maximum termination liability period. For purposes of determining this charge, any facilities subject to minimum period monthly charges are considered to be in service at filed tariff rates.

Case No. 87-08

Customer Name: Communications Transmission, Inc.  
Location: 11 S. Meridian Street  
Indianapolis, Indiana

Description: Construction consists of a 200 pair "T" screened cable to be placed between Indiana Bell's 4th floor equipment room and the customer's 17th floor location both at 11 S. Meridian St. in Indianapolis. Innerduct will be placed in the conduit when the cable is placed. This construction is based on Communications Transmission, Inc's forecast for DS1s.

NRC: \$825.00      AUL: \$52.41/DS1      ILP: 8-12-87 to 8-12-92

Effective:	8-12-87	8-12-97
Expiration:	8-12-97	8-12-02
MTL Amount:	\$3,003.54	\$1,575.37

(TR704)

---

Issued: April 14, 1993

Effective: May 19, 1993

Assistant Vice President, 4F08

Case No. 88-02                      Customer Name: AT&T  
   Location: 1222 W. Morgan St.  
   Kokomo, Indiana

Description: Construction consists of the installation of 150 DS1s and one (1) 6-fiber Single Mode cable from the KOKOMO CO to the AT&T POP located at 1222 W. Morgan St., Kokomo, Indiana.

NRC: \$2,712.77                      AUL: \$120.27/DS1                      ILP: 12-23-88 to 12-23-03

Effective:	12-23-88	12-23-98
Expiration:	12-23-98	12-23-03
MTL Amount:	\$65,553.34	\$18,045.16

Case No. 90-01                      Customer Name: GTE Telcom  
   Location: 4715 Grant Line Road  
   New Albany, Indiana

Description: The construction consists of installation of a DS1 fiber network (15 DS1's) by Indiana Bell. The GTE Telcom POP would be served from our New Albany, Indiana central office (C.O.). Indiana Bell would utilize an existing sixteen fiber cable from our New Albany C.O. to a manhole at the intersection of Blackiston Mill Road and Charles Road. At this point, a new eight fiber cable would be installed along St. Joseph and Grant Line Road to the POP. Fiber facilities were specifically requested by GTE. This filing is in accordance with F.C.C. No. 2, Original page 502.12.1.A.

NRC: \$1,584.00                      AUL: \$769.22                      ILP: 02-15-90 to 02-15-93

Effective:	02-15-90
Expiration:	02-15-00
MTL Amount:	\$41,730.00

**SPECIAL CONSTRUCTION****5. Michigan Bell Special Construction Cases****5.1 Special Construction Cases Transferred from Michigan Bell Telephone Company  
Tariff F.C.C. No. 37**

This section contains special construction charges for facilities provided to Other Common Carriers in accordance with Michigan Bell Telephone Company Tariff F.C.C. No. 37, Facilities for Other Common Carriers, prior to May 25, 1984. These special construction cases are subject to the regulations specified in 2.1 through 2.8 preceding, with the following exception. When the initial liability period expires, an underutilization charge applies to the difference between 70% of the number of original specially constructed facilities and the number of facilities in service at filed tariff rates at that time. For purposes of determining an underutilization charge, any facilities subject to minimum period monthly charges are considered to be in service at filed tariff rates.

**5. Michigan Bell Special Construction Cases (Cont'd)****5.2 Special Construction Cases Transferred from American Telephone and Telegraph Company, Long Lines Department Tariff F.C.C. No. 262****5.2.1 Charges for the State of Michigan**

This section contains the Michigan Bell Telephone Company portion of special construction cases providing permanent facilities in accordance with the regulations contained in American Telephone and Telegraph Company, Long Lines Department Tariff F.C.C. No. 262, Special Construction, prior to May 25, 1984. These cases are subject to the regulations specified in 2.1 through 2.8 preceding, with the exception of maximum termination liability period for special construction cases transferred from Tariff F.C.C. No. 262 shall retain a liability period as specified in Tariff F.C.C. No. 262. In addition, instead of underutilization liability based on costs, when there is a partial discontinuance of service on specially constructed facilities, the charge for only the rate elements containing the specially constructed facilities, as contained in the appropriate service tariff, will apply during the unexpired portion of the maximum termination liability period. For purposes of determining this charge, any facilities subject to minimum period monthly charges are considered to be in service at filed tariff rates.

**SPECIAL CONSTRUCTION****6. Ohio Bell Special Construction Cases****6.1 Special Construction Cases Transferred From Ohio Bell Telephone Company Tariff F.C.C. No. 37**

This section contains special construction charges for facilities provided to Other Common Carriers in accordance with Ohio Bell Telephone Company Tariff F.C.C. No. 37, Facilities for Other Common Carriers, prior to May 25, 1984. These special construction cases are subject to the regulations specified in 2.1 through 2.8 preceding, with the following exception. When the initial liability period expires, an annual underutilization charge applies to the difference between 70% of the number of original specially constructed facilities and the number of facilities in service at filed tariff rates at that time. For purposes of determining the underutilization charge, any facilities subject to minimum period monthly charges are considered to be in service at filed tariff rates.

**6. Ohio Bell Special Construction Cases (Cont'd)****6.2 Special Construction Cases Transferred From American Telephone and Telegraph Company, Long Lines Department Tariff F.C.C. No. 262 (Cont'd)**

X

This section contains the Ohio Bell Telephone Company portion of special construction cases providing permanent facilities in accordance with the regulations contained in American Telephone and Telegraph Company, Long Lines Department Tariff F.C.C. No. 262, Special Construction, prior to April 3, 1984. These cases are subject to the regulations specified in 2.1 through 2.8 preceeding, with the exception of annual underutilization liability. When there is a partial discontinuance of service on specifically constructed facilities, the charge for only the rate elements containing the specially constructed facilities, as contained in the appropriate service tariff, will apply during the unexpired portion of the maximum termination liability period. For purposes of determining this charge, any facilities subject to minimum period monthly charges are considered to be in service at filed tariff rates.

**7. Wisconsin Bell Special Construction Cases (Cont'd)****7.2 Special Construction Cases Transferred From American Telephone and Telegraph Company, Long Lines Department Tariff F.C.C. No. 262 (Cont'd)**

This section contains the Wisconsin Bell, Inc. portion of special construction cases providing permanent facilities in accordance with the regulations contained in American Telephone and Telegraph Company, Long Lines Department Tariff F.C.C. No. 262, Special Construction, prior to May 25, 1984. These cases are subject to the regulations specified in 2.1 through 2.8 preceding, with the exception of maximum termination liability and annual underutilization liability as follows. The maximum termination liability period for special construction cases transferred from Tariff F.C.C. No. 262 shall retain a liability period as specified in Tariff F.C.C. No. 262. In addition, instead of underutilization liability based on costs, when there is a partial discontinuance of service on specially constructed facilities, the charge for only the rate elements containing the specially constructed facilities, as contained in the appropriate service tariff, will apply during the unexpired portion of the maximum termination liability period. For purposes of determining this charge, any facilities subject to minimum period monthly charges are considered to be in service at filed tariff rates.
